# XForge : The Ultimate DePIN Phone

XForge

**XForge** is the first node-operated blockchain DePIN Phone.

- **Node Running**: Each smartphone functions as a node. XForge comes equipped with the capability to run XProtocol nodes and nodes for partner blockchain networks, allowing users to contribute resources like bandwidth and computation power while earning rewards for their participation.
- **Airdrops**: XForge owners are eligible for exclusive airdrops from top-tier Web3 projects, adding additional incentives and value to their involvement in the ecosystem.
- **Token Allocation**: 10% of XProtocol's total token supply is reserved specifically for XForge owners, offering them a tangible stake in the network's growth and ongoing rewards for their support.

# ₵MX AGENT

## FULLY AUTOMATED AI AGENT FOR CRYPTO & MONEY EXCHANGE

# CMX Agent Turns Chat Into a Gateway for Crypto

## Fully automated AI Agent for Crypto & Money Exchange

# About Bitcoin Impact

Bitcoin impact is a bespoke event where blockchain industry professionals discuss and engage on the current topics and main market trends.

From the latest tech developments to regulatory frameworks leading blockchain experts share their knowledge and thoughts on how blockchain and crypto currencies are disrupting our society, institutions and our way of life.

Bitcoin impact introduces cutting edge projects that are making a positive impact in our world implementing blockchain technology.

# CLU฿ ṣatoshi

AT CLUB SATOSHI our mission is clear: to foster a supportive environment where members can deepen their understanding of Bitcoin, blockchain technology, and the broader cryptocurrency ecosystem.
We aim to empower individuals to navigate the complexities of the digital currency landscape confidently while promoting innovation and collaboration within the community.
